Android?

Description

How many would be interested if I develop the SGBB Cashback App into an Android version?

And would you guys be willing to help contribute to it via crowdfunding?

Most of the quotes I'm getting so far are just wayyyyyy out of my budget. For context, we're looking at a 4-figure sum.

I can't afford to personally fork out that much especially after what has gone into the iOS version ð??© thoughts?
