

How to Construct Your Childâ??s Investment Portfolio â?? on Money 89.3FM

Description

default watermark

If you havenâ??t already set your calendars, donâ??t forget to tune in later tonight at 8pm as we go on Facebook LIVE to share strategies on how as parents, you can construct an investment portfolio for your child(ren)!

Are endowment plans good enough?

Should you invest for your child instead?

What makes investing for your child different from investing for yourself?

If one wishes to invest for your children, how can we do so?

Money 89.3FM invited me as a guest for this series, and Iâ??ll be sharing on how I invest for my own son, as well as actually teach on how you can invest through (i) passive instruments, (ii) robo-advisory platforms or even (iii) Do-It-Yourself!

Some of the exciting stuff Iâ??ll reveal include:

- How I invest for Nate
- A sample ETF portfolio
- A sample DIY equities portfolio
- Actual case study â?? this part is gonna be intense, but I promise to make it as beginner-friendly as possible.

Of course, weâ??ll also be taking questions throughout, so just field your 101 questions to us or get me to re-teach a concept youâ??ve been struggling with.

This is literally a good peek into what you can expect from the Investing for Parents course (click to preview) that Iâ??ve done up upon request by some of you guys, so you wonâ??t want to miss it!

Click here to register for the event, and donâ??t forget to tune in on Facebook *(going LIVE on Money 89.3FM Facebook page and weâ??ll also be cross-posting to my page ð???)*

With love,
Budget Babe
